

CURRICULUM VITAE

TINEVIMBO EVELYN RUSIKE

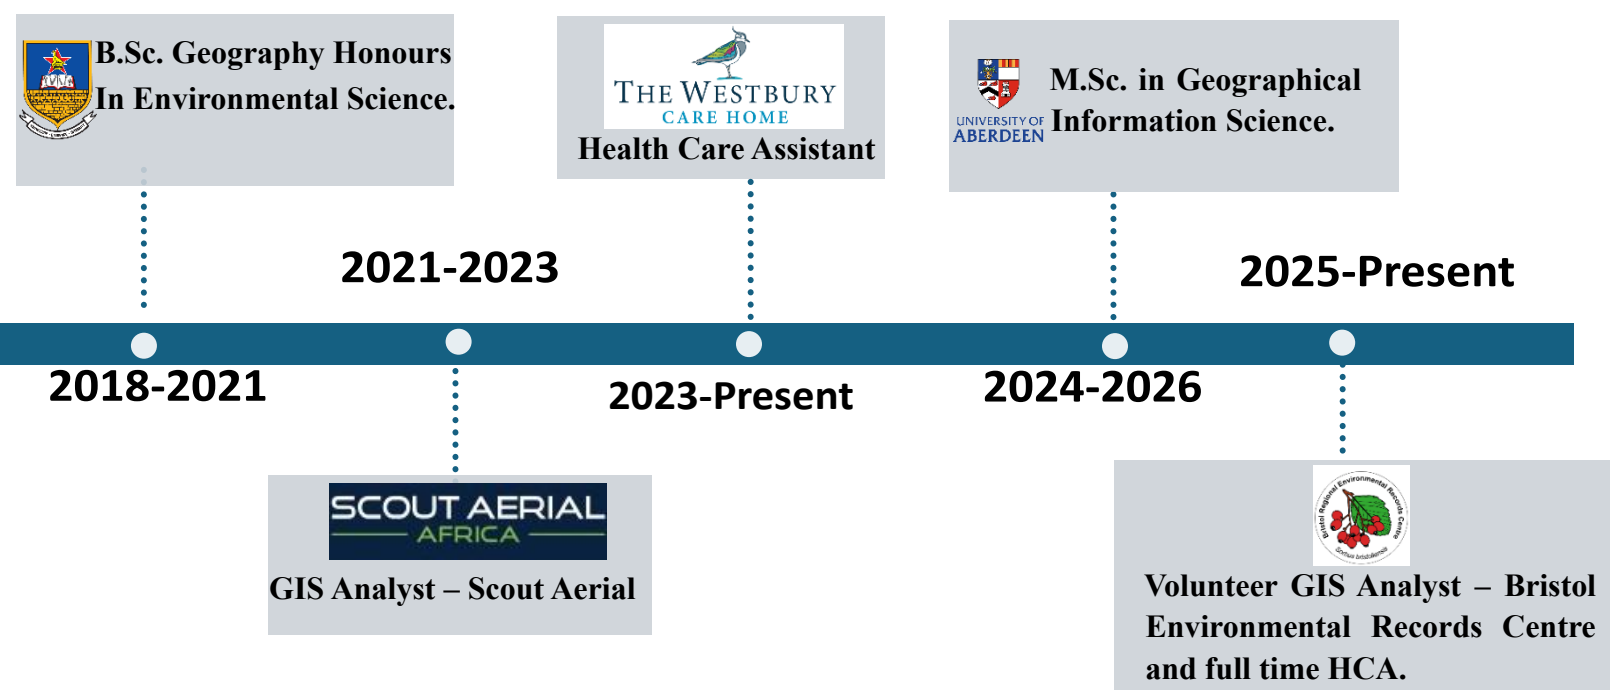

PERSONAL DETAILS:

Address: 3 Saint Way, Stoke Gifford, Bristol
Phone: +447471384541
E-Mail: tinevimbo37@gmail.com
LinkedIn Profile: <https://www.linkedin.com/in/tinevimbo>
Personal Website: https://tinevimborusike.github.io/tinevimbo-s_geospatial_cv/

PERSONAL STATEMENT:

I am an extremely motivated GIS expert with a deep passion for GIS and its need for providing sustainable solutions. I love working with GIS data and it brings me great fulfilment in revealing insights that influence real people. A fun fact about me is that I am a fighter, I have always been and apply this characteristic in every aspect of my life. I look for solutions whilst paying attention to detail, dedicate my time and above all I motivate others around me. Beyond GIS, I love spending time outdoors—running, taking long walks, and building endurance. These activities energize me and keep me focused in both my professional and personal life.

MY CAREER PATH:

RELEVANT SKILLS:

- Geospatial Data processing: Global Mapper, ESRI Enterprise - ArcGIS Pro (wide range of extensions including 3D and Spatial Analyst), QGIS, AutoCAD.
- Geodatabases: MySQL, PostgreSQL.
- Model Building: ArcGIS Toolbox Model Builder, ArcGIS Customised Toolbox Builder.
- Satellite Processing: Google Earth Engine and ArcGIS Pro.
- Web GIS Skills: Leaflet, Geo Server, ArcGIS Instant Apps, ArcGIS Survey123, ArcGIS Online and QGIS Web Maps.
- Photogrammetry: Pix4D Enterprise, Agisoft Meta shape, Cloud Compare.
- Programming: Python and R.
- GIS Dashboards: Shiny Dashboards, ArcGIS Dashboards.
- Computer Skills: Microsoft Suite, Windows and Linux Operating Systems.
- Customer Services skills.
- Other skills: Ability to operate under tight deadlines, Great team member, Keen eye for detail.

WORK EXPERIENCE

1. GIS Analyst and UAV Photogrammetrist

[Scout Aerial Africa](#) | 2021– 2023

- Planning and leading the company's first-ever drone carbon mapping project.
- Utilizing photogrammetric software to process UAV imagery generating accurate Digital Surface Models (DSM), orthomosaics, point clouds, and Digital Terrain models to support geospatial analysis.
- Creating maps in ArcGIS Pro and QGIS for conducted surveys.
- Automating tasks with ArcGIS Model Builder.
- Editing videos and pictures with Adobe Premiere Pro and Photoshop.
- Georeferencing maps and overlaying them for geospatial analysis.
- Managing client geodatabases for monthly volumetric surveys.
- Managing large datasets, organizing, cataloguing imagery, and establishing robust file management protocols to enhance project traceability.
- Handling client data with confidentiality and discretion.
- Compiling processing workflows for the smooth operation of all GIS analysis and knowledge sharing.
- Conducting rigorous quality control on geospatial datasets, verifying accuracy and compliance with industry & company standards of high quality.

2. Health Care Assistant

[Westbury Care](#) | Bristol, UK |2023- Present

- Comprehensive Personal Care.
- Percutaneous Endoscopic Gastronomy Feeding and Care.
- Catheter Care.
- Administration of medication.

- Moving and handling of patients.

3. GIS Analyst (Volunteer)

Bristol Environmental Records Centre | 2025 March – Present

- Logging data on species occurrence and habitat.
- Automation of tasks using Python Scripting and Model Building.
- Entering and managing species data into the Spatial Database.
- Creating habitat and species maps.
- Administrative tasks such as cataloguing images, general filing, and email management.
- Statistical analysis of species data.
- Attending to data queries and distributing requested data.

EDUCATION

M.Sc. in Geographical Information Science

University of Aberdeen Online

2024-2026

Grade: To be Announced

B.Sc. Geography Honors in Environmental Science

University of Zimbabwe

2018-2021

First Class – Cum Laude

PUBLICATIONS

Coupling ensemble of small models with UAV-derived structural and textural metrics to predict occurrence of an invasive alien plant in an urban woodland reserve.
